WHO WE ARE

Welcome to EDUAREA.IN

EDUAREA.IN — MySchool ERP is a next-generation, cloud-based School Enterprise Resource Planning system designed specifically for the realities of Indian schools, from small Hindi-medium and regional-language institutions to large CBSE and English-medium campuses. Our mission is simple: give every school — regardless of size or budget — access to enterprise-grade digital management tools that were once affordable only to elite institutions.

Built by a team that understands both technology and the day-to-day chaos of school administration, EDUAREA.IN brings admissions, attendance, fees, transport, hostel, examinations, communication, HR and security under a single, unified dashboard — accessible anytime, anywhere, on any device.

Our Promise to Every School

- ✓ A single system that replaces registers, spreadsheets and 10 different apps
- ✓ Pricing designed for Bharat — real affordability, no hidden charges
- ✓ Complete data security with role-based access for every stakeholder
- ✓ Dedicated onboarding, training and local-language support team
- ✓ Continuous updates and new features at no extra cost

Our Vision

To digitally empower every school in India — urban and rural — with technology that is simple, reliable and genuinely affordable.

Our Mission

To reduce administrative burden on teachers and management so they can focus on what matters most — the students.

Built To Impress From Day One

Everything a modern school administration needs — in one place, at a price every school can afford.

Unbeatable Pricing

Starting at just ₹25/student/month for Hindi & other regional-medium schools and ₹50/student/month for CBSE/English-medium schools — the most affordable full-featured ERP in India.

33+ Modules, 100+ Features

From admission to alumni — every school function is already built-in. No need to buy separate software for fees, transport, or exams.

4 Dedicated Applications

Separate, purpose-built Web & Android apps for Admin, Staff, and Student + Parent — each optimized for its exact user.

Live Bus Tracking

Real-time GPS tracking of school buses with parent alerts for pickup, drop and route deviation — student safety, always on.

Advanced Security

Visitor pass management, gate entry logs and biometric-ready attendance keep your campus fully secure and monitored.

Full Customization

We tailor the entire ERP to your school's exact workflow and branding — at minimal additional cost.

Complete Financial Suite

Fee collection, online payments, receipts, defaulter tracking, payroll and expense management — fully automated.

100% Cloud-Based

No servers, no installations. Access your entire school from any device, anywhere, anytime — with automatic backups.

Local Support Team

Real people, real support. Our team assists with setup, data migration, training and ongoing queries in your language.

One Platform. Every Department.

Every module below is included with your subscription — fully integrated, no add-on purchases required.

Admission Mgmt

Online enquiry to admission in a few clicks

Student Info System

Complete digital student profiles & records

Attendance

Daily, subject-wise & biometric attendance

Document Vault for Students

Staff Performance Reports

Inventory & Asset Register

Admission Enquiry Funnel

Result Analysis & Graphs

Push Notifications

...and dozens more features being added every month, at no additional cost to your subscription.

Four Apps. One Ecosystem.

Unlike generic ERPs, EDUAREA.IN gives every stakeholder their own dedicated, purpose-built application — on both Web and Android.

Admin Panel

Complete command centre — manage admissions, fees, staff, transport, exams, finances, reports and settings from one powerful dashboard, on Web & Android.

Staff Panel

Teachers mark attendance, assign homework, upload marks, view timetables and communicate with parents directly from their phone or desktop.

Student + Parent Panel

Parents track attendance, fees, homework, exam results, live bus location and school circulars — all real-time, in one simple app.

Security & Gate Panel

Front desk staff manage visitor passes, gate entries and campus security logs digitally, with instant record-keeping.

Why Separate Apps Matter

- ✓ Each user sees only what's relevant to them — no clutter, no confusion
- ✓ Faster performance since each app is optimized for its specific role
- ✓ Stronger data security through strict role-based permissions
- ✓ Easier adoption for non-technical staff and parents alike
- ✓ Works smoothly even on low-end Android devices and slow networks

Available on Android & Web

Download the app or log in from any browser — your data stays perfectly in sync across devices.

Real-Time Notifications

Instant push alerts for attendance, fees, homework, exam results and bus location updates.

Multi-Language Support

Interface available in Hindi and regional languages, so every parent and staff member feels at home.

STUDENT SAFETY FIRST

Live Tracking & Campus Security

Parents trust schools that can show, in real time, that their child is safe. EDUAREA.IN makes that trust visible.

Live School Bus Tracking

GPS-enabled tracking of every school bus with live location sharing to parents, automated pickup/drop notifications, route history, speed alerts and driver details — all inside the parent app.

Visitor Pass Management

Every visitor is digitally registered with photo, purpose of visit, host details and time-in/time-out logs — replacing unsafe paper registers with a fully auditable digital trail.

Biometric & Digital Attendance

Sync biometric devices or RFID cards for tap-in attendance of students and staff, with instant absence alerts sent to parents via SMS and app notification.

Gate & Campus Entry Logs

Maintain a complete digital record of everyone entering and exiting the campus — searchable, exportable and always available for audits or emergencies.

Why Parents & Management Trust EDUAREA.IN Security

Safety isn't an add-on for us — it's built into the core of every module. From the moment a student boards the bus to the moment they walk through the school gate, every step is tracked, logged and instantly visible to authorized staff and parents. No paperwork, no delays, no blind spots.

Every Rupee, Fully Accounted For

From fee collection to payroll, EDUAREA.IN automates the entire financial workflow of your school.

Fee Collection

Custom fee structures per class, category-wise discounts, instalment plans and automated due-date reminders to parents.

Online Payment Gateway

Accept fees via UPI, debit/credit card and net banking with instant digital receipts — no more manual cash handling.

Defaulter Tracking

Auto-generated defaulter lists, follow-up reminders and outstanding-dues reports for the accounts team.

Payroll & HR Finance

Automated salary calculation, deductions, payslip generation and staff loan/advance tracking.

Income & Expense Ledger

Track every school expense — from stationery to salaries — with category-wise ledgers and exportable reports.

Financial Reports

Real-time dashboards for daily collection, monthly revenue, pending dues and year-on-year comparisons.

Bank-Grade Financial Transparency

Every transaction is logged, time-stamped and traceable. Management gets a complete, real-time picture of school finances — no more waiting for month-end reports or reconciling registers by hand. Auditors and management committees get instant access to accurate, exportable financial data whenever they need it.
